

# Greenvention Biotech

**Providing biological solutions for management of insect  
pests, pathogens, plant nutrition and soil health**

We are ISO 9001:2015 certified Biotech Company established and run by highly qualified entrepreneurs who are scientists having vast experience in microbiology, entomology and plant pathology. We have started this venture with an aim to develop authentic, ethical, knowledge-based biotechnological products for the farming community at affordable cost.

Our goal is to bring safe eco-friendly knowledge based products & consultancy in the market for farmers as an alternative to chemicals, thereby safeguarding our food and environment from chemical contamination. Close working and collaborations with national research laboratories, agricultural universities and institutions all over India keeps us up to date and gives the cutting edge to our products.

**“Innovations in Agriculture for Sustainable Development”**

## KITOGOLD™

### FUNGICIDE AND PLANT DEFENSE BOOSTER.

Useful against pathogens: enhances plant immunity to defend against fungal and bacterial diseases including downy mildew, powdery mildew, wilt, rot, blight, anthracnose, rust etc.

किटोगोल्ड यह नैसर्गिक तत्वों से निर्मित उत्पाद फसल की प्रतिकार क्षमता एवम पैदावार बढ़ाने में सहायता करता है। इसके प्रयोग से फफुंद और जीवाणुजन्य रोगोंसे बचाव होता है।

## PUSHPGOLD™

### EXTENDS LIFE OF CUT FLOWERS

Pushp Gold is a food for various cut flowers such as gerberas, carnations, chrysanthemums, rose, lilies etc. Use of PushpGold extends the life of cut flowers by minimum 3-4 days.

पुष्पगोल्ड यह कटे हुए फूलोंके लिए खाद्य है जिसके उपयोग से फूल लम्बे समय तक अच्छे और ताजा रहते हैं। २०-२५ ग्राम पुष्पगोल्ड १ लीटर पानी में घोलकर इस्तेमाल करें.

## SHAKTIVAAN™

### PLANT GROWTH PROMOTER

Shaktivaan is photosynthesis enhancer and growth stimulant, it is useful for many crops including various cereals, pulses, oil seeds, vegetables, fruit and flowering plants.

Shaktivaan contains triacontanol, a metabolic activator as a main ingredient. Triacontanol increases photosynthesis, metabolic, enzymatic and hormonal activities; thereby improves quality and yield of the produce.

शक्तिवान यह नैसर्गिक तत्वों से निर्मित उत्पाद फसल की पैदावार बढ़ाने में सहायता करता है।
